and

[Insert consortium name or list of consortium members]

PURPOSE and SCOPE

The purpose of the Health Resources and Services Administration (HRSA) RCORP-Planning project is to support prevention of and treatment for substance use disorders, including opioid use disorder (OUD). The overall goal of the program is to reduce the morbidity and mortality associated with opioid overdoses in high-risk rural communities by strengthening the capacity of multi-sector consortiums to address one or more of three focus areas at community, county, state, and/or regional levels: (1) Prevention—reducing the occurrence of opioid addiction among new and at-risk users as well as fatal opioid-related overdoses through community and provider education and harm reduction measures including the strategic placement of overdose reversing devices, such as naloxone; (2) Treatment—implementing or expanding access to evidence-based practices for OUD treatment, such as medication-assisted treatment (MAT); and (3) Recovery—expanding peer recovery and treatment options that help
